

# EWB Wisconsin Professional Partners Meeting

***We will be hosting***

***Dan T. Peters***

who last winter set out to make an adventure-documentary during his two-continent independent study. Over six months, on a 40-year-old dirt bike named Natasha, Dan made it through snowstorms, corrupt police and many breakdowns to Bogota, relying on the kindness of strangers and families along the way. He has returned with thousands of pictures and hundreds of hours of footage. He will be sharing his stories, pictures and a short film with us. Following the presentation we will have a discussion on Guatemala, where he spent a month living with an impoverished family.
